Opening PDF documents

The documents on this site open with page one and Bookmarks opened on the left pane for easy navigating to whatever page you would like to view.

We do not default to Full Screen View, however if a document is set to open in Full Screen view, the tool bar, menu bar, and window controls are not visible. You can exit Full Screen view by pressing Escape, if your preferences are set this way, or by pressing Ctrl+L (Microsoft® Windows® and UNIX®) or Command+L (Mac OS).

Viewing PDF documents on the Web

With most of the files at this site, you can view PDF documents using a Web browser. Every document on the Web is identified by a (URL). When a PDF document is stored on the Web, you can click a URL link to it to open the PDF document in your Web browser. This is the preferred method.

Reading PDF documents in a Web browser

In Win and Mac OS, PDF documents are displayed in the Web browsers compatible with Netscape Navigator 4.0 (or later) or Microsoft Internet Explorer 4.0 (or later).

Normally the necessary plug-ins are automatically installed when you install Acrobat Reader. For information on manually getting your browser ready, see Installing the Web browser plug-in.

(NOTE: If pages of your PDF document appear blank when viewed in a Web browser, you may be using an early version of a Web server. Try saving the PDF file locally, and viewing it using Acrobat Reader instead of the plugin.)

When you view a PDF document in a Web browser, all of the Acrobat Reader tools are available in the browser. In Windows, you can click the two small vertical lines (next to the Adobe icon at the left of the tool bar) to minimize or maximize the tool bar.

Note: Many keyboard commands are mapped to the Web browser rather than to Acrobat Reader, so some Acrobat Reader keyboard shortcuts may not be available in the browser window.

In UNIX, PDF documents can display in Web browsers compatible with Netscape Navigator 4.0 (or later) only. To set up Netscape compatibility, launch Netscape using the Netscape script located in the Acrobat 4.0/Browsers directory. Follow the instructions in the INSTGUIDE.TXT file to link your Netscape browser to the Acrobat 4.0 Reader with Search application.

Web viewing scenarios

Here are four possible scenarios for viewing PDF on the Web. We use Optimized PDF files to download a page-at-a-time This is when the browser supports PDF viewing, the PDF file is optimized, and the Web server supports page-at-a-time downloading (byte-serving), so the PDF file downloads a page at a time and displays the file pages in the Web browser window. This is the fastest scenario possible for viewing PDF documents on the Web.

There are other downloading possibilities, which we do not use on this site.

Page-at-a-time downloading

With page-at-a-time downloading (byte-serving), the Web server sends only the requested page of information to the user, not the entire PDF document.

For those who want the entire document, there are other methods used to download the entire document to your hard disk.

As a reader of the PDF document, you do not have to do anything to make this page-at-a-time happen; it is communicated in the background between Acrobat Reader and the Web server. If you want the entire PDF document to continue downloading in the background while you view the first page of requested information, be sure Allow Background Downloading is selected in the General preferences dialog box (default).

If you wish to download the entire file to your computer, right click your mouse button, and then,

Select: Save link as... If you use Netscape or,

Select: Save target as... If you use Internet Explorer

After you decide where on your computer you want the file, hit "SAVE" to download. Once the file is on your computer double click on it to open it in Acrobat Reader. With this method you can open these files from your computer at anytime.

Reading PDF in a Web browser

PDF documents can display in Web browsers compatible with Netscape Navigator 3.0 (or later) or Internet Explorer 3.0 (or later). The necessary plug-ins are automatically installed when you install Acrobat Reader.

When you view a PDF document in a Web browser, all of the Acrobat Reader tools are available in the browser. In Windows, you can click the two small vertical lines (next to the Adobe icon at the left of the toolbar) to minimize or maximize the toolbar.

Note: Many keyboard commands are mapped to the Web browser rather than to Acrobat Reader, so some Acrobat Reader keyboard shortcuts may not be available in the browser window.

Installing the Web browser plug-in

Browsers compatible with Netscape Navigator need the *nppdf32.dll* file (Windows), the *nppdf.so* file (UNIX), or *PDFViewer plug-in* (Mac OS) to display PDF.

When you install Acrobat Reader with Search, this plug-in is automatically installed in the Netscape plug-in folder (Win and Mac OS), if you have Navigator on your system. If you install Navigator after installing Acrobat Reader, or if you're using another browser compatible with Navigator, you can install this plug-in yourself. To set up Netscape Navigator on a UNIX system, you must run the Netscape launch script located in the Browser folder.

To manually install the Web browser plug-in (Windows):

- 1 Open the Browser folder in the Acrobat Reader folder.
- 2 Copy the nppdf32.dll file to your Web browser's plug-ins folder.

To manually install the Web browser plug-in (Mac OS):

- 1 Open the Web Browser Plug-in folder in the Acrobat Reader folder.
- 2 Copy the PDFViewer plug-in to your Web browser's plug-ins folder.

To open a PDF document that's been downloaded onto your system:

Do one of the following:

Click the *Open* button , or choose *File > Open*. In the *Open* dialog box, select the filename for the file downloaded on your computer, and click *Open*. PDF documents usually have the extension .pdf.

You can also choose the document's filename from the *File* menu for the last four PDF documents you opened. You can also Double-click the file icon in your file system.

Note: In Mac OS, you may not be able to open a PDF document created in Windows by double-clicking the icon. If double-clicking the icon in Mac OS does not open the document, use File > Open in Acrobat Reader to open the document, close the document, and try again. After you've used the Open command once on the document, you'll be able to open the document next time by double-clicking.

To display a list of all Acrobat Reader command-line options (UNIX), start the Acrobat Reader product with the -help option. For example: `acroread -help`

To manually install the Web browser plug-in (UNIX):

Run `<installdir>/Browsers/netscape`.

Browsing with bookmarks

Bookmarks mark parts of a document for quick access, link to page views in other documents, link to the Web, play a movie or sound, enter an article, or reset or submit a form. Primarily we are concerned with the sheet music at present however as this develops more features will be incorporated. Essentially Bookmarks are nothing more than links to open pages inside the document or files outside of the document.

To browse with a bookmark:

- 1 Show the Bookmarks palette (This is the default on first opening the music files. If not, you may need to choose *Window > Show Bookmarks* to open the palette or click the *Bookmarks* tab to bring the palette to the front of its group.

2 To jump to a topic using its bookmark, click the bookmark's icon or text in the palette.

Note: Clicking a bookmark might perform an action, such as playing a movie, instead of taking you to another location. It depends on how the bookmark was defined.

The bookmark for the part of the document currently showing appears boldfaced. If the navigation pane disappears when you click a bookmark, the document creator has activated the Hide After Use command. To show the navigation pane again, click the Show Navigation Pane button on the command bar. Deselect Hide After Use in the navigation pane's palette menu if you want the navigation pane to remain open after you click a bookmark.

Bookmarks can be subordinate to other bookmarks in their hierarchy; a higher-level bookmark in this relationship is the parent, and a lower-level bookmark is the child. You open these and close these by selecting the (+) to open or (-) to close next to the bookmark listing if in Windows and the Triangle in the MacOS.

In other words, you can collapse a parent bookmark in the palette to hide all its children. When a parent bookmark is collapsed, it has a plus sign (Windows) or a triangle (Mac OS) next to it. If the bookmark you want to click is hidden in a collapsed parent, click the plus sign or triangle next to the parent to show it.

Paging through a document

Acrobat Reader provides buttons, keyboard shortcuts, and menu commands for paging through PDF documents.

To go to another page do one of the following:

To go to the next page, click the *Next Page* button in the command bar or status bar, press the *Right Arrow* key, press *Ctrl* (Windows or UNIX) or *Option* (Mac OS) and the *Down Arrow* key, or choose *Document > Next Page*.

To go to the previous page, click the *Previous Page* button in the command bar or status bar, press the *Left Arrow* key, press *Ctrl* (Windows or UNIX) or *Option* (Mac OS) and the *Up Arrow* key, or choose *Document > Previous Page*.

To move down one line, press the *Down Arrow* key.

To move up one line, press the *Up Arrow* key.

Note: The *Down* and *Up Arrow* keys move you one line at a time when you are in *Window* view. In *Single Page* mode, these keys move you one page at a time if the page fills the entire screen.

To move down one screen, press *Page Down* or *Return*.

To move up one screen, press *Page Up* or *Shift+Return*.

To go to the first page, click the *First Page* button in the command bar or status bar, press the *Home* key, or choose *Document > First Page*.

To go to the last page, click the *Last Page* button in the command bar or the status bar, press the *End* key, or choose *Document > Last Page*.

To jump to a page by its number:

Do one of the following:

Select the current page number in the status bar, type the page number to jump to, and press Return.

Choose *Document > Go To Page*, type the page number, and click *OK*.

OR

Drag the vertical scroll bar until the number of the page you want to jump to is displayed.

To retrace your viewing path:

To retrace your path within a PDF document, click the *Go to Previous View* button in the command bar, or choose *Document > Go Back* for each step back. Or click the *Go to Next View* button, or choose *Document > Go Forward* for each step forward.

To retrace your viewing path through other PDF documents, choose *Document > Go Back Doc* for each step back or *Document > Go Forward Doc* for each step forward. Or hold down *Shift*, and click the *Go Back* or *Go Forward* button. This command opens the other PDF documents if the documents are closed.

Visiting the Adobe Web site For additional help:

"I do not mention Sai Baba in any of my discourses, but I bear the name as Avatar of Sai Baba. I do not appreciate in the least the distinction between the various appearances of God: Sai, Rama, Krishna, etc. I do not proclaim that this is more important or that the other is less important. Continue your worship of your chosen God along lines already familiar to you, then you will find that you are coming nearer to me, for all names are mine and all forms are mine. There is no need to change your chosen God and adopt a new one when you have seen me and heard me." --Sathya Sai Baba

ASATHOMA

(FROM UNTRUTH LEAD ME TO THE TRUTH)

Transcribed from a recording of BHAGAVAN SRI SATHYA SAI BABA singing this mantra.
English text adapted from various translations by Dennis Neal, USA.

A - sa - tho Maa Sad Ga - ma - ya
From un-truth lead me (us) to the truth,

Tha - ma - so Maa Jyo - thir Ga - ma - ya
From dark - ness lead me (us) to the light,

Mrith - yor Maa Am - ri - tam Ga - ma - ya
From death lead me (us) to im - mor - tal - i - ty.

*Optional
Om, Shan - ti, Shan - ti, Shan - ti.
Om, Peace, Peace, Peace.

This Mantra is comprised of three prayers.

1. "O Lord, when I am deriving happiness through the objects of this world, make me forget the unreal objects and show me the way to permanent happiness."
2. "O Lord, when the objects of this world attract me, remove the darkness which hides the all-pervading Atma, which every such object really is."
3. "O Lord, bless me through Your Grace with Immortality, or Paramananda, resulting from the awareness of the effulgence of the Atma, immament in every object."

This is the real meaning of the Manthra.

(Portions of a quotation of Bhagavan Sri Sathya Sai Baba, appearing in the book, DIGEST, which is a collection of His sayings.)

BHAGAVAN, TAKE OUR LOVE

Melody: Anthon Dvorak's 'NEW WORLD' SYMPHONY

Text authored by Jay Jarrett, Atlanta, Georgia, USA

Bha - ga - van, take our love, let it flow to Thee.

Take our hands, let them do Thy work constant - ly.

Take our souls, let them merge with Thy Ho - ly Light.

Take our minds, make them pure, perfect in Thy Sight.

May our thoughts, born of Thee, guided from above,

Make us all, Bhagavan, instruments of Love.
