Opening PDF documents

The documents on this site open with page one and Bookmarks opened on the left pane for easy navigating to whatever page you would like to view.

We do not default to Full Screen View, however if a document is set to open in Full Screen view, the tool bar, menu bar, and window controls are not visible. You can exit Full Screen view by pressing Escape, if your preferences are set this way, or by pressing Ctrl+L (Microsoft® Windows® and UNIX®) or Command+L (Mac OS).

Viewing PDF documents on the Web

With most of the files at this site, you can view PDF documents using a Web browser. Every document on the Web is identified by a (URL). When a PDF document is stored on the Web, you can click a URL link to it to open the PDF document in your Web browser. This is the preferred method.

Reading PDF documents in a Web browser

In Win and Mac OS, PDF documents are displayed in the Web browsers compatible with Netscape Navigator 4.0 (or later) or Microsoft Internet Explorer 4.0 (or later).

Normally the necessary plug-ins are automatically installed when you install Acrobat Reader. For information on manually getting your browser ready, see Installing the Web browser plug-in.

(NOTE: If pages of your PDF document appear blank when viewed in a Web browser, you may be using an early version of a Web server. Try saving the PDF file locally, and viewing it using Acrobat Reader instead of the plugin.)

When you view a PDF document in a Web browser, all of the Acrobat Reader tools are available in the browser. In Windows, you can click the two small vertical lines (next to the Adobe icon at the left of the tool bar) to minimize or maximize the tool bar.

Note: Many keyboard commands are mapped to the Web browser rather than to Acrobat Reader, so some Acrobat Reader keyboard shortcuts may not be available in the browser window.

In UNIX, PDF documents can display in Web browsers compatible with Netscape Navigator 4.0 (or later) only. To set up Netscape compatibility, launch Netscape using the Netscape script located in the Acrobat 4.0/Browsers directory. Follow the instructions in the INSTGUIDE.TXT file to link your Netscape browser to the Acrobat 4.0 Reader with Search application.

Web viewing scenarios

Here are four possible scenarios for viewing PDF on the Web. We use Optimized PDF files to download a page-at-a-time This is when the browser supports PDF viewing, the PDF file is optimized, and the Web server supports page-at-a-time downloading (byte-serving), so the PDF file downloads a page at a time and displays the file pages in the Web browser window. This is the fastest scenario possible for viewing PDF documents on the Web.

There are other downloading possibilities, which we do not use on this site.

Page-at-a-time downloading

With page-at-a-time downloading (byte-serving), the Web server sends only the requested page of information to the user, not the entire PDF document.

For those who want the entire document, there are other methods used to download the entire document to your hard disk.

As a reader of the PDF document, you do not have to do anything to make this page-at-a-time happen; it is communicated in the background between Acrobat Reader and the Web server. If you want the entire PDF document to continue downloading in the background while you view the first page of requested information, be sure Allow Background Downloading is selected in the General preferences dialog box (default).

If you wish to download the entire file to your computer, right click your mouse button, and then,

Select: Save link as... If you use Netscape or,

Select: Save target as... If you use Internet Explorer

After you decide where on your computer you want the file, hit "SAVE" to download. Once the file is on your computer double click on it to open it in Acrobat Reader. With this method you can open these files from your computer at anytime.

Reading PDF in a Web browser

PDF documents can display in Web browsers compatible with Netscape Navigator 3.0 (or later) or Internet Explorer 3.0 (or later). The necessary plug-ins are automatically installed when you install Acrobat Reader.

When you view a PDF document in a Web browser, all of the Acrobat Reader tools are available in the browser. In Windows, you can click the two small vertical lines (next to the Adobe icon at the left of the toolbar) to minimize or maximize the toolbar.

Note: Many keyboard commands are mapped to the Web browser rather than to Acrobat Reader, so some Acrobat Reader keyboard shortcuts may not be available in the browser window.

Installing the Web browser plug-in

Browsers compatible with Netscape Navigator need the *nppdf32.dll* file (Windows), the *nppdf.so* file (UNIX), or *PDFViewer plug-in* (Mac OS) to display PDF.

When you install Acrobat Reader with Search, this plug-in is automatically installed in the Netscape plug-in folder (Win and Mac OS), if you have Navigator on your system. If you install Navigator after installing Acrobat Reader, or if you're using another browser compatible with Navigator, you can install this plug-in yourself. To set up Netscape Navigator on a UNIX system, you must run the Netscape launch script located in the Browser folder.

To manually install the Web browser plug-in (Windows):

- 1 Open the Browser folder in the Acrobat Reader folder.
- 2 Copy the nppdf32.dll file to your Web browser's plug-ins folder.

To manually install the Web browser plug-in (Mac OS):

- 1 Open the Web Browser Plug-in folder in the Acrobat Reader folder.
- 2 Copy the PDFViewer plug-in to your Web browser's plug-ins folder.

To open a PDF document that's been downloaded onto your system:

Do one of the following:

Click the *Open* button, or choose *File > Open*. In the *Open* dialog box, select the filename for the file downloaded on your computer, and click *Open*. PDF documents usually have the extension .pdf.

You can also choose the document's filename from the *File* menu for the last four PDF documents you opened. You can also Double-click the file icon in your file system.

Note: In Mac OS, you may not be able to open a PDF document created in Windows by double-clicking the icon. If double-clicking the icon in Mac OS does not open the document, use File > Open in Acrobat Reader to open the document, close the document, and try again. After you've used the Open command once on the document, you'll be able to open the document next time by double-clicking.

To display a list of all Acrobat Reader command-line options (UNIX), start the Acrobat Reader product with the -help option. For example: `acroread -help`

To manually install the Web browser plug-in (UNIX):

Run `<installdir>/Browsers/netscape`.

Browsing with bookmarks

Bookmarks mark parts of a document for quick access, link to page views in other documents, link to the Web, play a movie or sound, enter an article, or reset or submit a form. Primarily we are concerned with the sheet music at present however as this develops more features will be incorporated. Essentially Bookmarks are nothing more than links to open pages inside the document or files outside of the document.

To browse with a bookmark:

- 1 Show the Bookmarks palette (This is the default on first opening the music files. If not, you may need to choose *Window > Show Bookmarks* to open the palette or click the *Bookmarks* tab to bring the palette to the front of its group.

2 To jump to a topic using its bookmark, click the bookmark's icon or text in the palette.

Note: Clicking a bookmark might perform an action, such as playing a movie, instead of taking you to another location. It depends on how the bookmark was defined.

The bookmark for the part of the document currently showing appears boldfaced. If the navigation pane disappears when you click a bookmark, the document creator has activated the Hide After Use command. To show the navigation pane again, click the Show Navigation Pane button on the command bar. Deselect Hide After Use in the navigation pane's palette menu if you want the navigation pane to remain open after you click a bookmark.

Bookmarks can be subordinate to other bookmarks in their hierarchy; a higher-level bookmark in this relationship is the parent, and a lower-level bookmark is the child. You open these and close these by selecting the (+) to open or (-) to close next to the bookmark listing if in Windows and the Triangle in the MacOS.

In other words, you can collapse a parent bookmark in the palette to hide all its children. When a parent bookmark is collapsed, it has a plus sign (Windows) or a triangle (Mac OS) next to it. If the bookmark you want to click is hidden in a collapsed parent, click the plus sign or triangle next to the parent to show it.

Paging through a document

Acrobat Reader provides buttons, keyboard shortcuts, and menu commands for paging through PDF documents.

To go to another page do one of the following:

To go to the next page, click the *Next Page* button in the command bar or status bar, press the *Right Arrow* key, press *Ctrl* (Windows or UNIX) or *Option* (Mac OS) and the *Down Arrow* key, or choose *Document > Next Page*.

To go to the previous page, click the *Previous Page* button in the command bar or status bar, press the *Left Arrow* key, press *Ctrl* (Windows or UNIX) or *Option* (Mac OS) and the *Up Arrow* key, or choose *Document > Previous Page*.

To move down one line, press the *Down Arrow* key.

To move up one line, press the *Up Arrow* key.

Note: The *Down* and *Up Arrow* keys move you one line at a time when you are in *Window* view. In *Single Page* mode, these keys move you one page at a time if the page fills the entire screen.

To move down one screen, press *Page Down* or *Return*.

To move up one screen, press *Page Up* or *Shift+Return*.

To go to the first page, click the *First Page* button in the command bar or status bar, press the *Home* key, or choose *Document > First Page*.

To go to the last page, click the *Last Page* button in the command bar or the status bar, press the *End* key, or choose *Document > Last Page*.

To jump to a page by its number:

Do one of the following:

Select the current page number in the status bar, type the page number to jump to, and press Return.

Choose *Document > Go To Page*, type the page number, and click *OK*.

OR

Drag the vertical scroll bar until the number of the page you want to jump to is displayed.

To retrace your viewing path:

To retrace your path within a PDF document, click the *Go to Previous View* button in the command bar, or choose *Document > Go Back* for each step back. Or click the *Go to Next View* button, or choose *Document > Go Forward* for each step forward.

To retrace your viewing path through other PDF documents, choose *Document > Go Back Doc* for each step back or *Document > Go Forward Doc* for each step forward. Or hold down *Shift*, and click the *Go Back* or *Go Forward* button. This command opens the other PDF documents if the documents are closed.

ASATHOMA

(FROM UNTRUTH LEAD ME TO THE TRUTH)

Transcribed from a recording of BHAGAVAN SRI SATHYA SAI BABA singing this mantra.
English text adapted from various translations by Dennis Neal, USA.

A - sa - tho Maa Sad Ga - ma - ya
From un-truth lead me (us) to the truth,

Tha - ma - so Maa Jyo - thir Ga - ma - ya
From dark - ness lead me (us) to the light,

Mrith - yor Maa Am-ri-tam Ga- ma- ya
From death lead me (us) to im-mor - tal - i - ty.

*Optional
Om, Shan - ti, Shan - ti, Shan - ti.
Om, Peace, Peace, Peace.

This Mantra is comprised of three prayers.

1. "O Lord, when I am deriving happiness through the objects of this world, make me forget the unreal objects and show me the way to permanent happiness."
2. "O Lord, when the objects of this world attract me, remove the darkness which hides the all-pervading Atma, which every such object really is."
3. "O Lord, bless me through Your Grace with Immortality, or Paramananda, resulting from the awareness of the effulgence of the Atma, immament in every object."

This is the real meaning of the Manthra.

(Portions of a quotation of Bhagavan Sri Sathya Sai Baba, appearing in the book, DIGEST, which is a collection of His sayings.)

Just before taking your food, you should pray and offer the entire meal to God in order to cleanse and purify it. This prayer, which is offered before food, is not for the benefit of God, but it is for your own benefit; it will purify your food by evoking God's blessing.

This prayer is taken from the Bhagavad Gita: chapter four, verse twenty-four, and, chapter fifteen, verse fourteen.

The act of offering is Brahman, the offering itself is Brahman, offered by Brahman in the sacred fire which is Brahman. He alone attains Brahman who, in all his actions, is fully absorbed in Brahman.

I am Vaishvaanaro, the all-pervading cosmic energy lodged in the bodies of living beings. Being united with their ingoing and outgoing life-breaths, I consume all the different (four types of) foods.

Before offering this prayer, the food is merely food; but once you offer it to the Lord it becomes Prasadam, consecrated food. This prayer removes all the defects and flaws in the vessels and in the articles of food, as well as removing any negative influence acquired during the cooking process.

Tat Sa - vi - tur Va - re - nium Bar - go De - vas - ya

Dhee - ma - he Dhi - yo Yo Nah Pra - cho - day - at

Repeat 3 times

Aum or Om represents sound as the basis of creation.
Bhur represents the earth, the gross.
Bhuvah represents the atmosphere, the ether, the subtle.
Suvah represents heaven, the region beyond BHUVAH, the casual.

Tat stands for THAT. The Ultimate Reality is referred to as THAT because it defies description through speech or language
Savitur stands for the divine SAVITRI, the life giving power contained in the sun.
Varenium is to adore.

Bhargo represents radiance, luster and illumination.
Devasya is divine grace.
Dheemahi means we contemplate.
Dhiyo stands for intellect.
Yo Nah Prachodayat is requesting, urging, praying.

A Translation:

**We meditate on that Supreme Effulgence of the Radiant Being
...the indwelling Controller and Director of all things.
May He stimulate our intellect entirely (to realize the Truth).**

The GAYATHRI is the universal prayer inshrined in the Vedas, the most ancient scriptures of man. It is addressed to the Immanent and Transcendent Divine which has been given the name "Savitha" which means, 'that from which all this is born'.

The GAYATHRI may be considered as having three parts.

- 1. PRAISE...the Divine is praised and glorified.*
- 2. MEDITATION...with reverence the Divine is contemplated.*
- 3. PRAYER...an appeal is made to the Divine to awaken and strengthen the discriminating faculty of man...the intellect.*

This melodic notation was transcribed from a recording of BHAGAVAN SRI SATHYA SAI BABA teaching this mantra to a large gathering of students. It was sung in a rote fashion, with Baba singing a phrase, and the students repeating it. It was sung through three times. The harmonization is submitted by the transcriber.

This is an accompaniment designed to be used with the singing of the 'Omkar'. Its composition reflects the harmonies and styles of the Western culture's musical formats in a traditional sense.

SUGGESTIONS:

Part A could be played by a solo instrument (a flute, French horn, or such) as it is a counter melody which floats over the one toned OM sound.

Part B is a metered 'arpeggio style' musical line that could be played on a harp or guitar. It is designed rhythmically to guide the singers through the OMKAR with a marked, steady pace.

Part C is written for the keyboard and can be used nicely without utilizing parts A and/or B.

Key of E Flat

Transcribed as sung by the Sai Bhajan Group from the
Oakland Park Shiva Temple, Ft. Lauderdale, FL. USA.

The musical score is presented in a grand staff format, with a treble clef on the upper staff and a bass clef on the lower staff. The key signature consists of three flats (B-flat, E-flat, A-flat), and the time signature is 4/4. The score is divided into six systems, each containing two staves. The vocal line is written in the treble clef, and the piano accompaniment is in the bass clef. The lyrics are written below the vocal line. The first system starts with a treble clef and a 4/4 time signature. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The second system starts with a measure rest of 3 measures, indicated by a '3' above the staff. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The third system starts with a measure rest of 5 measures, indicated by a '5' above the staff. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The fourth system starts with a measure rest of 7 measures, indicated by a '7' above the staff. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The fifth system starts with a measure rest of 9 measures, indicated by a '9' above the staff. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The sixth system starts with a measure rest of 11 measures, indicated by an '11' above the staff. The lyrics are "Om Na-mah Shi - va - ya Om Na-mah Shi - va - ya". The piano accompaniment consists of a steady bass line with some harmonic support in the right hand.

"The vibhuti which you smear on your forehead is intended to convey this basic spiritual lesson.....that EVERYTHING will be reduced to ashes, including the brow that wears it."

(a quote from: SATHYA SAI SPEAKS Vol. V ~ p. 260)

As sacred prasada, it (vibhuti) is taken for the healing of sickness; physical, mental, emotional, spiritual. It is symbolic of the ultimate reality which remains when the dross of ego is burnt away by the fire of illumination. It is the symbol of detachment, vibhuthi bushana, where Siva, as the great ascetic, covers His body with ashes.
